

Tyler Texas | 6:18cr16 | Request for departure

For sentencing memorandum, it would be redundant to restate everything. Just see my objections to initial PSI and suggested sentence. (dkt # 368)

I will however ~~not~~ reinforce my argument against +4 increase with the new evidence from the Smith County

In terms of downward departure, I do not access to US Sentencing guidelines, therefore other than downward departures described on USSG §2K2.1, I do not know what other downward departure are available. (Thanks to US Marshals of East Texas, Love, and Schroeder's conspiracy to deprive me of my access to a law library)

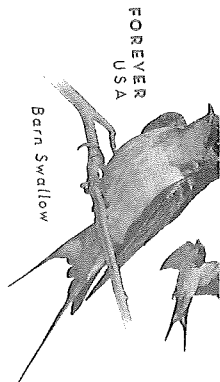

I am mentally sound. I always had been mentally sound and competent. I was completely sane, functioning and mentally sound when I ~~did~~ checked US Citizen and possessed firearms. Therefore diminished mental capacity is not applicable for me in terms of downward departure.
